Drawings

1. The drawings were received on 25 August 2005. These drawings are approved.

Allowable Subject Matter

2. Claims 1-21 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a wheel assembly having an inner surface of a wheel cover secured to an outer surface of a wheel by a cured primary adhesive pattern having a space not filled with the primary adhesive formed between the wheel and wheel cover, and a cured auxiliary adhesive pattern, which is insufficient to secure the wheel cover to the wheel, and has a configuration of discrete beads of adhesive that are provided in portions of the space formed by the wheel cover and wheel that is not directly secured by the primary adhesive pattern.

For example, the Maloney et al and Woelfel references only disclose primary adhesive patterns for securing a wheel cover to a wheel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3617

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Cutcher et al reference, which shares a common inventor with the instant application, shows a wheel cover secured to a wheel by a primary adhesive pattern, but lacks the auxiliary adhesive beads.
